The Alpha Acoustics® KRONOS 18SA is a high-output, flyable active subwoofer designed for powerful low-frequency reinforcement. Engineered for array systems, the KRONOS 18SA features an 18" ferrite magnet low frequency driver with a 4" voice coil, delivering clean, deep bass. The subwoofer is powered by a 1500W Class D amplifier with 6000W peak power, ensuring extreme SPL and performance reliability. Built into a rugged 18mm birch plywood cabinet with water-resistant coating and rubber feet, it is suitable for portable and fixed installations. With DSP control, cascading options, and multiple mounting configurations, the KRONOS 18SA is ideal for demanding audio applications in touring, venues, and house of worship systems.
